SUMMARY

Results-driven and detail-oriented 2025 B.Tech Computer Science graduate with hands-on experience in Python, Java, Spring Boot, ReactJS, REST APIs, Microservices, MySQL, and MongoDB — eager to design, code, and enhance scalable software components in a fast-paced, agile, product-driven environment. Proficient in OOP, SDLC, Agile methodology, and data structures, with working knowledge of FastAPI, Docker, AWS, Generative AI, and LLMs — bringing strong problem-solving ability, version-control experience, collaborative team spirit, and a willingness to learn and adapt while writing clean, maintainable, and efficient code.

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, HTML5, CSS3

Backend & APIs: Spring Boot, FastAPI, Spring MVC, REST APIs, Microservices, JPA/Hibernate, JDBC, OOP

Frontend: ReactJS, Angular, Responsive UI, Component-Based Architecture

Databases: MySQL, MongoDB (NoSQL), Oracle SQL, PLSQL, SQL

Tools & DevOps: Git, Docker, AWS, Postman, VS Code, IntelliJ IDEA, STS, Eclipse

Practices & AI: Agile, SDLC, Generative AI, LLMs, Prompt Engineering, Data Structures, Code Reviews, Debugging

PROJECTS

Employee Management System [\[Link\]](#) Apr 2025 – Jun 2025

Full-Stack Web Application using Java, Spring Boot, MySQL, ReactJS

- Engineered a full-stack Employee Management System using Java, Spring Boot, Microservices, ReactJS, and MySQL, implementing RESTful APIs, CRUD operations, and secure authentication with OOP principles, Layered Architecture, Git, and Postman across the SDLC.
- Performed end-to-end testing, debugging, and backend optimization using JPA/Hibernate and Spring MVC; built a responsive ReactJS frontend with REST API integration, applying data structures and Agile code review practices.

Full Stack E-Commerce Web Application [\[Link\]](#) Nov 2025 – Jan 2026

Full-Stack E-Commerce Platform using Java, Spring Boot, MongoDB, ReactJS

- Developed a scalable full-stack E-Commerce platform using Java, Spring Boot, REST APIs, MySQL, MongoDB, ReactJS, HTML5, and CSS3, delivering Product Management, Search, Shopping Cart, and Theme modules via Git and Agile/Scrum, validated with Postman.
- Designed a scalable backend using Spring MVC, JPA/Hibernate, and Layered Architecture, integrating a responsive ReactJS frontend with optimized REST API consumption, applying data structures and debugging practices for maintainable delivery.

EDUCATION

2021 – 2025 | B.Tech (CSE) | Kallam Haranadhareddy Institute Of Technology | 75%

2019 – 2021 | Intermediate | Sri Govindhambika Parameswari Junior College | 86%

2018 – 2019 | SSC | Zilla Parishadh High School | 95%

CERTIFICATIONS

- Enhancing Soft Skills And Personality — Conducted by NPTEL [\[Link\]](#) Feb' 2023 – Apr' 2023
- Revature Pre-Training Program — PEP Extended FullStack Java [\[Link\]](#) Nov' 2025 – Mar' 2026

INTERNSHIPS

- AICTE Web Full Stack Developer Virtual Internship — Provided by EduSkills [\[Link\]](#) Oct' 2024 – Dec' 2024
